About the Role

We are seeking a Technician to join our Civil & Mining Services division in NSW.

You will join a team that has a demonstrated ability to execute on projects in a number of civil and infrastructure environments. You will have the ability to take what you have learned and expand upon it by utilising new technologies, whilst actively seeking opportunities to further enhance your knowledge base.

Some of the technologies and solutions we focus on are concrete pumping, grout pumping and injection, ground stabilisation technologies, chemical injection, concrete repair and coatings, hand and spray-applied cementitious and other lining technologies, drilling and anchoring, waterproofing, and civil construction.

Remuneration and benefits to be discussed during interview.

Advantageous to have some demonstrated experience in some of these core duties:

- › Concrete pump works
- › Grout injection
- › Dual component chemical injection
- › Concrete finishing and general concreting
- › Concrete remediation, repair, and patching
- › Drilling and anchoring

Essential Requirements:

- › Valid C class licence (Manual)
- › White card

Preferable Requirements:

- › EWP tickets
- › RIW ticket
- › Confined Space Certificate within last 12 months
- › MR/HR licence

We'd love to hear from you
